## ASTON MARTIN SKYFALL

The original used for this special series is:

		EFFECT
AST5149D	Skyfall Silver 1	Y

However, after a short while Aston Martin changed the colour to this one:

		EFFECT
AST5166D	Skyfall Silver 2	Y

Most of the cars are painted with AST5166D.

To verify the correct colour please make a sprayout of both colours to be sure which is the right one to use.

In case of uncertainty please contact the Colour Service which may be able to help to find the right colour with the chassis number.
